The California Housing Finance Agency's (CalHFA) funding is not subject to Budget Act appropriation and this display is for informational purposes only. Each spring the CalHFA board adopts an updated five-year business plan and annual budget. The Board has not yet adopted a final operating budget for the 2007-08 fiscal year. Therefore, the informational budget presented here reflects the full-year costs at the approved level of the 2006-07 fiscal year. As a Public Enterprise Funded entity, CalHFA support comes from revenue bonds and does not depend upon the faith, credit or taxing power of the State of California.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 LENDING ACTIVITY

The objective of this program is to finance housing at below market interest rates, using the proceeds of tax-exempt and taxable revenue bonds, which are not obligations of the State of California, to make: (1) mortgage loans to qualified first-time homebuyers to finance the purchase of single family homes and (2) construction and purchase loans for the creation and preservation of multifamily housing projects, and (3) special needs housing loans by either acquisition, new construction, rehabilitation, or refinancing. The agency is financially self-supporting, setting loan interest rates slightly above its cost and charging fees for specific services to cover its lending costs and risks.

#### 20 INSURANCE ACTIVITY

The Mortgage Insurance Services Division's objective is to encourage the preservation of existing housing and improve new housing opportunities by offering mortgage insurance products to homebuyers that might not otherwise qualify for a home loan. The program works with participating lenders, government agencies, government-sponsored enterprises, and the secondary mortgage market to develop and offer innovative homebuyer lending and mortgage insurance programs. The program is completely self-supporting and is not an obligation of the State of California. Program operations are supported primarily from premiums collected and the financial backing of the agency as a whole.

### MAJOR PROGRAM CHANGES

- Proposition 1B Funds - In November 2006, voters passed Proposition 1B, which provided \$19.9 billion in bond funds for transportation infrastructure in California. Of this amount, \$3.6 billion is for commuter or urban rail operators, bus operators, waterborne transit operators, and other transit operators in California for rehabilitation, safety or modernization improvements, capital service enhancements or expansions, new capital projects, bus rapid transit improvements, or for rolling stock procurement, rehabilitation, or replacement. The Governor's Budget includes \$1.3 billion in bond funds to be distributed over the next three years to local transit agencies, including \$600 million in 2007-08. Budget trailer legislation provides that each agency's share of funds, as determined by the bond act formula, will be disbursed as qualified projects are approved by the California Transportation Commission.
- Allocation of "Spillover" Funds - Existing law provides that in many years, sales tax revenues on gasoline that exceed the amount that one-quarter cent of sales tax on other purchases produces are deemed "spillover" revenues and are deposited in the Public Transportation Account. Current law also provides that one-half of those revenues are distributed to transit agencies for operations. These laws have often been changed for periods of time to allocate these revenues differently. The Governor's Budget proposes to continue the flow of these revenues into the PTA for 2007-08, except for \$340 million needed to offset transportation bond debt service. Additionally, the Budget proposes to permanently discontinue allocating spillover revenue to the State Transit Assistance program. This and other actions proposed in the budget frees up sufficient funding capacity to fund Home-to-School Transportation and Regional Center Transportation.
- 2006-07 Spillover - The 2006-07 Budget Act and current statute are in conflict with regard to how much funding should be allocated for transit assistance. The revenues from spillover in the current year are now anticipated to be more than \$100 million less than was forecast for 2006-07, but the Budget Act level, based on the higher estimates, has been interpreted as superceding the statute. Because this effectively allocates more than the revenues will support, the Governor's Budget proposes to correct for this over-allocation by reducing the state transit assistance share of sales tax revenues in 2007-08 by the extra amount it received in 2006-07.

### MAJOR PROGRAM CHANGES

- The Caltrans Budget reflects \$1.5 billion of expenditures in 2007-08 from allocations of \$5.2 billion to Caltrans in Proposition 1B bond funds for a range of transportation programs.
- The Caltrans Budget reflects full funding of Proposition 42 at \$1.5 billion plus \$83 million for loan repayment pursuant to Proposition 1A of 2006.
- The Caltrans Budget assumes spending the tribal compact cash as it comes in until the date that the bonds are sold is better known. \$100 million is assumed to be spent in both 2006-07 and 2007-08 and will be deposited in the State Highway Account per current law.
- The Caltrans Budget proposes to increase pavement maintenance funding by \$185 million. The State Highway Operations and Protection Program is increased by \$100 million while the Maintenance Program is augmented by \$85 million. This is made possible by retaining \$85 million in miscellaneous revenues not subject to Article XIX of the Constitution in the State Highway Account and tribal gaming cash to these priorities.
- The Caltrans 2006-07 budget includes \$204.5 million in additional federal funding from both reimbursement for emergency funds expended by Caltrans in past years and from federal funding that other states were unable to use. These funds will be used for additional rehabilitation work.

**PROGRAM DESCRIPTIONS (Program Objectives Statement)**

## 10 AERONAUTICS

The Aeronautics Program's objective is to support California's aviation activities by promoting safe and effective use of existing airports and heliports. This program also alleviates problems such as incompatible land uses, potential safety hazards, aircraft noise, and airport congestion by: (1) ensuring that airports and heliports comply with safety regulations, (2) providing engineering and financial assistance for safety and infrastructure improvements, (3) preparing for changes in the aviation network by maintaining the California Aviation System Plan, (4) providing guidance for land use compatibility in areas around airports, (5) administering airport noise standards regulations, (6) enhancing goods movement to and from airports through improved ground access, and (7) promoting and maintaining aviation safety.

## 20 HIGHWAY TRANSPORTATION

The Highway Transportation Program's objective is to operate, maintain, and continue development of our state highways. Development and delivery of capital projects make up the largest portion of these efforts. The program also meets its objectives through: (1) coordination and control required by federal and state law for implementing transportation projects, (2) furnishing assistance to city and county transportation programs, (3) management of traffic through a system of monitoring, analysis, and control. In addition, this program strives to improve highway travel, safety, and the environment through the use of testing, research, and technology development.

## 30 MASS TRANSPORTATION

The objective of the Mass Transportation Program is to support the state's transportation system by providing leadership in the implementation of safe, effective public transportation, improved air quality, and environmental protection. The program achieves its objective through: (1) the administration of intercity rail service in California, including capital projects and rolling stock management, (2) grant administration of state and federal capital and operations programs, and (3) planning, support, and coordination for mass transportation services. Additionally, the Mass Transportation Program serves to: (1) improve intercity passenger service through enhanced services and facilities, (2) facilitate the transportation needs of all persons, including the elderly, the disabled, and the economically-disadvantaged, (3) improve urban/commuter rail services, and (4) enhance mobility in congested corridors.

## 40 TRANSPORTATION PLANNING

The Transportation Planning Program's objective is to implement statewide transportation policy through coordination at the local and regional levels and to develop transportation plans and projects. The Department prepares the long-range state transportation plan required by state and federal law and provides long-range transportation system planning and transportation planning studies as input to the regional transportation plans, the State Transportation Improvement Program (STIP), and departmental policies and programs. The Department also prepares the Interregional Transportation Strategic Plan, which guides investment of the Interregional Improvement Program funds in the STIP.

## 50 ADMINISTRATION

The Administration Program provides the functions required to support the programmatic responsibilities of the department. Major activities include accounting, budgeting, auditing, office facility operations and management, information technology,

\* Dollars in thousands, except in Salary Range.

and a wide range of administrative services including human resources, procurement and contracting, training, and labor relations.

### 60 EQUIPMENT

The Equipment Program's objective is to provide mobile fleet equipment and services to other department programs through: (1) purchasing new vehicles, (2) receiving, servicing, and equipping new units, (3) assembling equipment components into completed units, (4) managing the fleet, (5) repairing and maintaining the fleet, including payments for fuel and insurance, and (6) disposing of used vehicles.

**PROGRAM DESCRIPTIONS (Program Objectives Statement)**

**10 TRAFFIC MANAGEMENT**

The objectives of this program are to minimize deaths, injuries, and property losses due to traffic accidents; to reduce traffic delays to the motoring public; to provide protection and assistance to the motoring public, state employees and property including protection of the State Capitol and the surrounding grounds, state constitutional officers and visiting dignitaries; and to curtail the potential for terrorist threat as part of state and federal homeland security efforts. These objectives are achieved through both ground and flight operations.

**20 REGULATION AND INSPECTION**

- Reducing the incidence of truck and bus accidents attributable to defective vehicle equipment, improper maintenance, loading or securement of cargo, or disqualified drivers.
- Protecting the public from spills of hazardous materials or specially regulated loads and from the improper operation of specified vehicles such as ambulances and armored cars.
- Protecting farm workers transported in farm labor vehicles and children transported in school buses.
- Ensuring that proper registration fees are paid, and protecting highways from excessive weights.

**30 VEHICLE OWNERSHIP SECURITY**

This program protects the public from vehicle theft through:

- Investigation and prosecution of the professional vehicle thief.

## 2740 Department of Motor Vehicles

The mission of the Department of Motor Vehicles (DMV) is to:

- Promote highway safety and financial responsibility by regulating the issuance and retention of driver licenses and personal identification cards to non-drivers, and by licensing and regulating occupations and businesses that manufacture, transport, sell or dispose of vehicles, and that provide driver training instruction.
- Protect the public interest in vehicle and vessel ownership through the registration and titling process.
- Collect various revenues for state and local agencies.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on DMV's Capital Outlay Program see "Infrastructure Overview."

**INFRASTRUCTURE OVERVIEW**

The Department of Motor Vehicles operates 217 facilities statewide. Many of these facilities contain multiple programs. The majority of these programs include customer service, driver safety, investigation and occupational licensing. The facilities contain an estimated 1.9 million gross square feet of state-owned properties and 898,545 gross square feet of agency-leased properties. These properties support the Department's mission to protect the public's interest in vehicle management, ownership and safety as well as regulation of the motor vehicle industry and the protection of personal information and identity.
